Theory
- K. Yoshida : RCNP
- T. Miyagi : Tsukuba

Just after this meeting, I consider to discuss among UEC
whether we add supplementary members.
If you have any suggestions, please give me right now.

Report of Users Meeting & Thesis Award

UM: Users Meeting
CM: Collaboration Meeting
ADRIB: RIBF upgrade workshop

- Hold **UM** and **ADRIB** in series
  - UM: Jan. 21 (Tue) ← Hybrid
  - ADRIB: Jan. 22-23 (Wed-Thu) ← Onsite

  UM registrants: 80 (about half of them participated onsite.)

- Thank you for your participation.
  Thank also to the ADRIB organizing committee
  for cooperating many things !

- We will discuss next year's plans around early April.
  Please share any feedback you have.
  - January may be difficult time for university people (still giving lectures).
    After Feb. 20 would be better ? Any suggestions ?

Report of Users Meeting & Thesis Award

- Award ceremony & special talk

Dr. Mădălina Enciu
(Technische Universität Darmstadt, 2023)

"Extended p3/2 neutron orbital
and the N=32 shell closure in 52Ca"

We will call for applications in the next fiscal year as well.
Please encourage young researchers to apply !

Status of Users Group Registration

Thank D. Suzuki (Tokyo) and Y. Watanabe (RNC) for their cooperation !

- Last report in Sep. 2024

  Some issues were found:
  1) database corruption
  2) data inconsistency between the member list and the mailing list

  → Corrected.

  But still, member list and mailing list are independently managed.
  We consider to unify the system. (may migrate to Google?)

- Clean up of non-active members

  Policy: Remove the members
  * whose email addresses repeatedly cause bounces
  * who have passed away

  Number of registrants:
  Before cleanup: 809 → After cleanup: 681 (As of Mar. 14, 2025)

- We will request an update of registration information every two years before the election, and delete members based on the above policy after the election.

Requests to Nishina Center

- We have submitted a letter to RNC June 2024
  based on the survey on Mar. 2024.

- It is still under consideration within RNC.

- Positive signs

2. Machine Time

- "Earlier decision and notification of machine time"
  * Distribute the MT plan 3 months before the MT
  * If MT is delayed, provide explanations to RIBF Users ML.

For the next Spring SRC-BigRIPS MT (from mid-May),
the MT schedule has been actually available online 3 months before MT (mid-Feb.).

Thanks RNC for their efforts !

Anything else to discuss ?
(on UEC activities)
