2. Conference info page

- Background
 - There are only a few pages that summarize the meeting information on nuclear physics.
 - <http://www.nupecc.org/index.php?display=events>
 - <https://www.conference-service.com/conferences/nuclear-physics.html>
- Problems
 - They do not cover local meetings in Japan related to RIBF.
 - The information on past meetings cannot be accessed.
- Motivation
 - Webpage covering international and **local meetings** would be useful.
 - Meeting information could be accumulated and used as an **archive** in future.

2. Google Calendar embedded

- Google Calendar of meetings on nuclear physics
 - Meeting information will be accumulated on the Google Spreadsheet by UEC members.

Spreadsheet

The screenshot shows a Google Spreadsheet titled "Conferences" with a menu bar and a toolbar. The spreadsheet contains a table of conference information. A large text overlay "This sheet could work as an archive." is positioned over the bottom half of the table.
